Class : VI

English

Section A : Reading

I. Read the poem given below and answer the questions that follow:-

Our grandfather by the sea blind,

His deck chair settles our rug on the stones

And his face takes sunlight like thirst.

We always play games that need speaking;

Each of our cards and moves are told

And he smiles in his taking part.

We are saying our childhood to this old man

And his beautiful face, liver-marked and shy,

has no end in its space, no end in its gentleness,

To hold a while of listening left to do.

1. The central figure in the poem is _____ and he is accompanied by _____.

2. The words _____, _____, and _____ indicate that they were on the sea beach.

3. The children always like to _____ while they are playing games.

4. The phrase 'whole life of listening' indicates _____.

5. Pick words from the poem that are synonyms of the given words:

    a. require _____   b. participating _____

II. Read the following passage and answer the questions that follow:

Michael Jaffrey Jordan is a former American basketball player. He was born on February 17, 1963. He is hailed by name as the 'greatest basketball player of all time.' He was instrumental in popularising the NBA around the world in the 1980s and 1999s. After a standout career at the University of North Carolina at Chapel where he was a member of Tar Heels' National Championship team in 1982, with his prolific scoring. His leaping ability earned him the

nicknames ' Air Jordan' and 'His Airness'. He also gained a reputation for being one of the best defensive players in basketball. In 1991, he won his first NBA championship with the Bulls and followed that achievement with many other titles. He holds the NBA records for highest career playoff scoring average. In 1999, he was named as the greatest North American athlete of the 20th Century by a popular TV channel. He was inducted into the Basketball Hall of Fame in 2009.

Maths

1. Write:

   a) The smallest 5- digit number using only one digit.

   b) The greatest 5- digit number using two different digits.

2. How many 8-digits numbers are the in all do we have.

3. Express 2,75,00,386 in expanded form

4. State the place value of :-

   (i)   9 in 17, 87,93510   (ii)   7 in 7568

5. Write 80, 135, 006,478 in International system of numeration.

6. Write down three consecutive whole numbers just preceding 729,001.

7. A tin of biscuits has 14kg of biscuits. Express the weight in milligrams.

8. Round each of the following numbers to the nearest 1000.

   (i) 6839   (ii)   5264

9. Estimate first, then name the sum or difference.

   (i)   7789 – 539   (ii)   7345 + 15893

10. Write the roman numbers from 1 to 50.

11. Estimate the quotient. Write by actual calculations

    (i)   5598 ÷ 689   (ii)   7982 ÷ 812

12. Find each of the sums

    (i)   (15409 + 112) + 591   (ii)   15409 + (112+ 591)

13. Perform the subtraction 7839- 983 and check your results by corresponding addition.

14. The population of a village is 2000. If 655 are men and 578 are women. Find the number of children.

15. Multiply by suitable rearrangement.

    (i)   125, 40, 8, 25   (ii)   4, 897, 25

16. In a sum the divisor is 173, the quotient is 2544 and the remainder is 60. What is the dividend?

17. Simplify:

    (i)   50 – {13 + 2 (4 of 4)}   (ii)   5- -42 ÷ 3 of 7 – (20 +5)

18. List all the factors of   (i)   100   (ii)   27

19. Without actual division show that 19 is a factor of 190019.

20. List the first five multiples of 16.

21. Write the odd multiples of 19, less than 150.

22. Express (i) 36   (ii)   80 ad sum of two prime numbers.

23. Write the prime factorization of the largest 4- digit number.

24. Check the divisibility of 86020 by 2; by 3; by 5.

25. Find each by using the properties of multiplication

    (i)   37x 865 + 18 x 865 – 49 x 865 – 6 x 865

    (ii)   1072 x 8 + 1072 x 2

26. Find the HCF of 2261, 3059 and 3325 by long division method.

27. Find the largest number which divides 245 and 1029 leaving remainder 5 in each case.

28. There are 785 students on role in residential public school. If the annual fee per student is Rs. 62,606. What is the total fee collected annually by the school?

29. What must be added to 34, 52, 629 to make it equal to 6 croroe?

30. Find the H.C.F. of 54, 60, 72, 80 by Prime Factorization.

31. Four bells after an interval of 8, 9, 12 and 15 seconds respectively. When will they bell again?

32. Find the LCM of 12, 48, 60 by Prime Factorization method.

33. The HCF and LCM of two numbers are 13 and 1989 respectively. If one of the numbers is 117, determine the other.

34. Determine whether 43 is a factor if 85027.

35. Name two Primes with product.
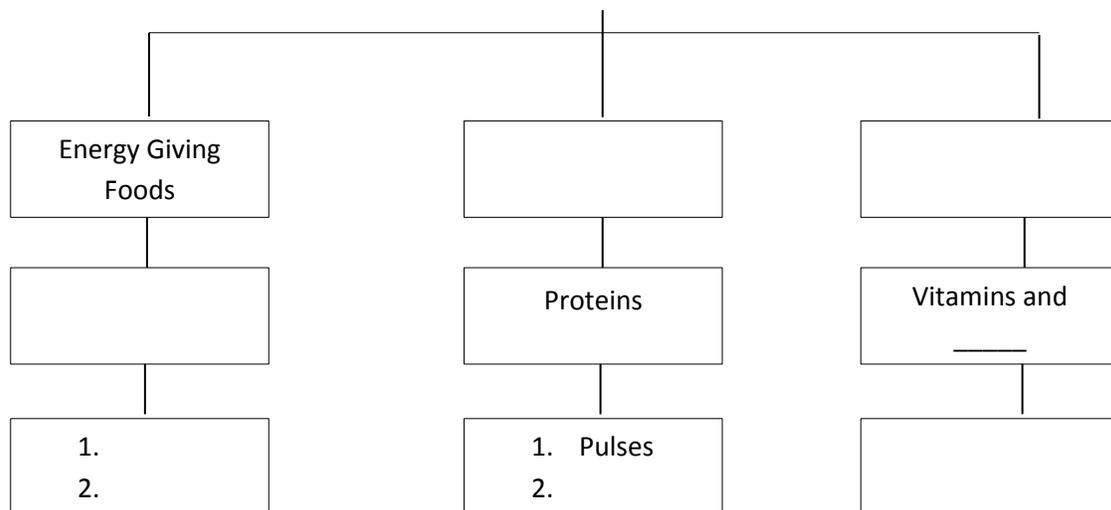

(i)   91   (ii)   35
